**RE: RCRA Post-Closure Permit Renewal Application – Determination of Completeness
Koch Nitrogen Company, Dodge City
EPA ID# KSD044625010**

Dear Ms. Moore:

The Kansas Department of Health and Environment (KDHE) reviewed the RCRA Post-Closure Permit application originally submitted by Koch Nitrogen Company, LLC on October 22, 2012. Various revisions to the application were completed in 2013 and 2014. All replacement pages have been incorporated into the approved application; therefore, KDHE finds the application to be complete at this time. Following the issuance of the Permit, any minor revisions to the application can be completed as Class 1 permit modifications.

If you have any questions regarding this letter, please do not hesitate to contact me via e-mail at espellman@kdheks.gov or by phone at (785) 296-1616. Your continued cooperation with KDHE is appreciated.

Sincerely,

Everett Spellman
Professional Geologist
Hazardous Waste Permits Section
